FAUCETS COLLECTION

EXPERIENCE
THE GRANDEUR OF
WATER FEEL IN YOUR SPACES

Faucet Technologies

Currently we are producing faucets in multitude with precision and care. We use state of the art technology with test of each faucets with its quality and performance. we extend 10 years warranty on each faucets not only for it's premium quality but our trust on our products to serve you better in each & every conditions.

Cartridges

At any faucet, Cartridge is heart of any faucet and cartridge is responsible for the water intensity & Flow.

- Cartridge spindle is made of highest quality brass.
- Work smoothly even at high temperatures and in various pressure Conditions.
- Extra wide angle Lever for extra comfort and flawless, smooth operations

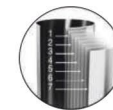

Aerator

This is a revolutionary technology that Lets your taps and showers save upto 80% of water without compromising on the flow.

- It mix air with water to Prevent splashing.
- Shape the water stream coming out of the faucet spout, to produce a straight and evenly pressured stream
- Conserve water and reduce energy costs - Reduce faucet noise
- Increase perceived water pressure (often used in homes with low water (pressure) sometimes described as a pressure regulator or flow regulator
- Provide slight filtration of debris due to a small sieve plate.

7 Layer Coating Chrome Finish

Upper shiny layer provides elegant finish to each and every faucets. High plating thickness to tolratnce extrme weather and different water temperatures.

Effortless Installation

Standard Plumbing connection with effortless installation.
